

Step Up - Take the IGC Stairs Save Energy & Get your Exercise, Too!

If you don't know where the Stairs are ...
Check the Emergency Exit map located in each IGC elevator lobby for the closest stairwell. Many stairwells are located very near the elevators. If you still can't find the stairs, then ask a co-worker!

If you don't know if the stairwell door will lock behind you once you get into the stairwell ... *Doors in IGC public stairwells near the elevators do not lock. However, doors in stairwells within tenant areas MAY lock, depending on the tenant's needs. Doors that lock have signs indicating such.*

P.S. New energy-efficient stairwell lighting in the IGC uses 30% LESS energy than the older fixtures!

And thanks for doing YOUR part to keep Indiana Green!
